

Creighton School Division No. 111

Policy Name:	Alcohol and Drugs
Policy Type:	Students
Number:	208
Date Approved:	May 21, 2014
Legal Reference:	<i>The Education Act, 1995; Section 150, 153-154, Criminal Code, Saskatchewan Alcohol Control Act, Narcotic Control Act, Charter of Rights and Freedoms, Young Offenders Act</i>

The Board of Education believes it has an educational and societal responsibility to prohibit the student use or possession of alcohol or drugs on school premises, at other locations while involved as a participant or spectator in a school-sponsored activity, or while in transport to and from school or a school-sponsored activity.

Guidelines

1. The Division prohibits the use of alcohol or drugs by students while on Division property or at events sponsored by the Division and its constituent schools. The possession of these substances, with the exception of tobacco and tobacco products, is also prohibited. (Note: While students 18 years of age may legally possess tobacco, this provision recognizes that it is the board's legal right to prohibit or restrict its use on school property or at school-sponsored events.)

Violations can occur in five ways:

- a) use of tobacco in a restricted area,
 - b) use or possession of alcohol,
 - c) use or possession of inhalants or other non-regulated substances for the purpose of intoxication,
 - d) use or possession of illicit drugs,
 - e) being intoxicated by alcohol or drugs.
2. While the Board recognizes the need for Division professional and resource staff to provide intervention, assistance and support to students who may be involved with chemical substance use or abuse, the Division believes that other community agencies have the major responsibility for providing counselling and rehabilitative programs for those who abuse alcohol and drugs. The Division will assist these agencies in fulfilling their responsibilities wherever possible, and refer students to them whenever necessary

ADMINISTRATIVE PROCEDURES

1. Students Under the Influence of Alcohol and Drugs

Definition: "*Under the Influence*" means when the use of an alcoholic beverage or illegal drug has a **discernible effect upon a student**.

The process to be followed when a student is reasonably believed to be under the influence of alcohol or an illegal drug is as follows:

The student will be referred to the principal and/or vice-principal who will;

- question the student about the incident;
- document the "discernible effect" the substance has upon the student;
- contact the parents/guardians immediately and require them to take the student out of the building. The student will be detained at the school until safe departure from the building can be arranged;
- explain the suspension process to the student and the parents/guardians as soon as reasonably possible;
- determine whether to contact the police for advice and/or assistance.

2. Students in Possession of Alcohol or Drugs

Definition: "*Possession*" means when a student has illegal drugs or alcoholic beverages on his or her person or in her or his control.

The process to be followed when a student is discovered to be in possession of alcohol or drugs is as follows:

The student will be referred to the principal and/or vice-principal who will;

- question the student about the incident;

- conduct a reasonable search of the student's person, the student's property and school property for evidence of the offence;
- seize all material evidence;
- contact the parents/guardians immediately and require them to take the student out of the building;
- the student will be detained at school until safe departure from the building can be arranged;
- explain the suspension process to the parents/guardians as soon as reasonably possible;
- consult the police for advice and/or assistance if it is deemed to be in the best interests of the student or the school.

3. **Student Trafficking in Drugs or Supplying Alcohol**

Definition: *"Trafficking in drugs" and "supplying alcohol" means when a student gives, sells or delivers alcoholic beverages or illegal drugs to another student.*

The process to be followed when a student is reasonably believed to be trafficking in drugs or supplying alcohol is as follows:

The student will be referred to the principal and/or vice-principal who will;

- put forth a best effort to have the student remain at school;
- put forth a best effort to see that the student is advised of what is taking place and encourage the student to wait until the parents arrive before engaging in discussions with the police;
- seek the advice of police in every case involving trafficking in drugs or supplying alcohol;
- co-operate with police in the investigation;
- inform the parents/guardians of the police action and the suspension process as soon as reasonably possible;
- consult the police for advice and/or assistance.

Note:

Possession of controlled drugs (eg. valium) is not an offence.

Possession of restricted drugs (eg. LSD, MDA) and narcotics (marijuana, hashish) is

an offence (*Narcotic Control Act* and *The Food and Drugs Act*).

Where a principal strongly suspects that alcohol or drugs are being "pushed" on school premises, by students or by others, the police shall be notified.

4. **Student Possession and/or Trafficking in Cigarettes or Other Tobacco Products**

Definition: *"Possession" means students under the age of 18 having cigarettes or other tobacco products under their control. "Trafficking" means when a student gives, sells, or delivers cigarettes or other tobacco products to students under the age of 18.*

The process to be followed when a student under the age of 18 is reasonably believed to be in possession of and/or trafficking in cigarettes or other tobacco products, or students of any age who are trafficking in cigarettes or other tobacco products to students under the age of 18 is as follows:

The student will be referred to the principal and/or vice-principal who will;

- question the student about the incident;
 - conduct a reasonable search of the student's person, the student's property, and school property for evidence;
 - seize all material evidence;
 - contact the parents/guardians about the incident to explain the disciplinary process as soon as possible;
 - determine whether to contact the police for advice and/or assistance.
5. When students are not acting in a usual or acceptable manner, procedures commonly used for illness shall be applied. A student obviously under the influence of alcohol or other drugs may require special and immediate protective attention.
6. Particularly when drug abuse is suspected, care shall be taken to concentrate on specific behaviour when communication with parents and other individuals takes place. School personnel are not to make a diagnosis or state a suspected cause for such behaviour.
7. As school buses are the property of the Board, possession, distribution, and sale of alcohol and/or drugs is prohibited on these vehicles. Students on school buses are subject to all the applicable policies and procedures of the Division with respect to transgressions related to alcohol and or drug offences.
